Re: BARNWELL 12 RURAL TITLES / KUR-WORLD / KUR-COW, KURANDA

I would like to bring to your attention three (3) additional earthworks greater than 50m³ on this property. These earthworks are in addition to the dam that has since been retrospectively approved by council in July 2016.

From drone surveys and video footage I have discovered the following major earthworks on the land since REEVER AND OCEAN (DEVELOPMENTS) PTY LTD purchase in JANUARY 2014. The developer has shown no regard for the land and water by not applying for the appropriate permits for these Operational Works.

Of particular concern is SITE3 Earthworks – a large cut-and-fill directly above Haren Creek – which was constructed at the same time as the dam. Fill was used from the dam on this site as can be seen from a media photo. Has this 'corner' been engineered for public use and to ensure it won't be lost in a Wet Season?

Your urgent reply on this matter would be greatly appreciated.

Yours sincerely
