

# Kuranda Indigenous Cultural Arts Collective

## Cultural Arts Space @ Kuranda Visitor Information Centre

Kuranda is home to an array of Cultural Artists of all ages including artefact makers, painters, weavers and carvers. Showcasing our homegrown talent in a Cultural Arts Space at the Visitor Information Centre will:

1. Increase exposure and profile for Kuranda material artists
2. Improve and encourage more artists to develop their creative work further
3. Develop cultural arts and crafts as part of the Indigenous Tourism Services offerings

Once registered with the Collective a rotation of different artists can be arranged to continue throughout the year. Artist profiles, business cards and info on how to purchase can be included with the display for prospective buyers.

Photos of proposed art spaces at Kuranda Visitor Information are below.

Option A: Glass enclosed box (3rd one down) with street frontage.

Option B: Good size area underneath. Will need custom built display box to slide in. Good street frontage.
